

The Tech Center

322 FOURTH AVENUE PITTSBURGH, PA 15222

In providing for your secure environment, many hospitals elect to move entire departments of their facility into our generator-supported office space on a permanent basis under the premise that the best disaster recovery plan is to place critical divisions in space that will not go down.

With your server in our data center and your critical divisions in our generator-supported office space, you have created a bunker for your critical departments to work from all day, every day.

Consider locating your Finance—patient billing, payroll, MIS, Medical Records, Facilities departments in our bunker.

An added benefit to this thinking is that in the event of a disaster, other members of your hospital can share this space until the disaster subsides.

FOR ALL YOUR DATA CENTER NEEDS AT THE PITTSBURGH TECHNOLOGY CENTER BUNKER, PLEASE CONTACT SIERRA DATA CENTERS at <http://www.sierradatacenters.com>

DATA CENTER SPACE

PRICING:

CABINET RENTAL: \$650.00 per month
INSTALLATION FEE: \$250.00

INSTALLATION FEE: \$150.00

All protected by an electronic smoke system that is tied directly to the fire department with raised floors supported by a dry-pipe, pre-action double interlock fire suppression system.

DISASTER RECOVERY

Responding to a disaster potential before it becomes a disaster is the first objective of disaster recovery planning.

The threat is there. The question is what is your exposure?
Can it get to your company? Your location? Your network?

WORKSTATION PRICING:

EXCLUSIVE: \$200 per seat/per month

SEMI-EXCLUSIVE: Sold up to 3 times

1st 10 seats: \$80

2nd 10 seats: \$50

WHAT IS GENERATOR SUPPORTED OFFICE SPACE?

4500 sf increments starting at \$4500 per month, plus \$3 per Amp per month of generator load.

Companies all over America have come to the conclusion that some divisions simply do not belong in the corporate headquarters. Some have special needs that simply cannot be supported properly in a headquarters environment.

Place that critical division in generated supported office space and enjoy the peace of mind knowing that this division is supported by:

1450 KVA Diesel generator
Fuel tank capacity: 16,000
Dual Transformers
Redundant fiber carriers
Redundant telephony carriers

Penn Telecom is one of The Tech Center's communications partners providing voice, data and all the vertical services. They have a floor in the facility and maintain a telecom switching facility in the building. This partnership allows us to offer customers a level of service that is not available in ordinary office buildings.

SONET RING

All seven high rise buildings owned by the EV Bishoff Company are supported by a Sonet ring increasing data and dial tone security and flexibility.

BROADBAND OPTIONS:

DQE'S 200 mile dark fiber network hub is housed in the Tech Center along with:

YIPES
QWEST
