

The Tech Center

322 FOURTH AVENUE PITTSBURGH, PA 15222

Printing and Litigation Support

In providing for a secure 24/7 environment, many printing companies specializing in litigation support elect to move their operation into our generator-supported facility to ensure round the clock production capability and control.

- Leverage our Meet Me Room and enjoy knowing that you have access to a number of internet providers.
- Use our loading dock and our over sized elevators to move your product in and out of the building quickly and easily.
- Combine your process expertise with our infrastructure and assure the smooth execution of any production.

With your server in our data center and your equipment and people in our generator-supported work space, you have what counts to execute and deliver a job well done.

Located on 4th Ave between PPG and the Grant Street corridor you are just minutes away you're your clients.

Don't trust your reputation to any other facility.

SONET RING

All seven high rise buildings owned by the EV Bishoff Company are supported by a Sonet ring increasing data and dial tone security and flexibility.
