The finest office space with the highest quality of management

Founded in 1966 E.V. Bishoff Company's mission was to create a commercial real estate company unlike any other. The company was founded on the principal of purchasing investments and holding on to those investments. What came next was the ability to create an office leasing experience that was fast, cost effective and easy to comprehend. The result was Office Leasing MADE SIMPLE.

Our company makes it easy for you to tour the office suite you want with the amenities you deserve and now we are offering something more. Each one of our office suites will be designed and developed to meet today's standard!

These office suites will get rid of the old drop ceilings, closed off conference rooms, out of touch private offices and introduce a new creative and collaborative office experience.

Our suites will now feature glass enclosed conference rooms, barn-style office doors, solar shades and glass enclosed private offices. In addition, we are making a push to go green by installing LED Lighting in each of our suites.

All of these new features combined with our commitment to 5-Star Service, easy leasing process and our top notch maintenance service makes our office suites the best choice in the market.
